Articles published on the RNZ website about Israel-Palestine and Xinjiang have also been edited. RNZ has published material that included Russian, Palestinian, and Chinese propaganda. The Broadcasting Minister needs to commission an independent inquiry.

Pro Russian, Palestinian or Chinese propaganda is dwarfed by US-led Western propaganda. It's so bad I've stopped watching and reading international news in NZ media.

What about the copious amounts of US propaganda that we're fed on a daily basis?

I dunno about more inquiries and commission's. I think more transparency (maybe more publicly published is a better description cos it can be found if looked for) around how many tax dollars go to which media organisations would better help shine a light on any bias.

I agree but it needs to be wider than the Russia issue. Does RNZ present unbiased journalism or is it influenced by corporate and government agendas

Who is to say that anything they publish is correct, vaccine effectiveness, covid origins, details in forming government directives, climate change, LBGQT+QWERTY and all of the consensus opinions being forced fed to those with misplaced trust.

What is deemed to be propaganda? Who decides what is acceptable and what isn't? Who among us is totally unbiased?

Gosh somebody changed a word. An editor was responsible. Hold an enquiry.

Dear God, grow up people. This happens every day in news media all over the world.

Is there evidence that it's propaganda? As opposed to someone just making alterations which they believe give a more accurate understanding of events?
